

SMaRT Fee Policy

Fees. SMaRT fees are \$10k per product.

Further, the MTS Executive Board decided in 2009 that membership is a benefit of Certification whereby a valid SMaRT Certificate requires SMaRT manufacturers to be annual dues paying Members in good standing. See attached MTS Member dues structure.

SMaRT fees per product for recertification or an additional product certification are \$10,500 for sustainable, silver and gold, and \$13,000 for platinum.

Product Platform Provision. For product lines with documented highly similar environmental attributes, SMaRT allows that all product lines can be certified for the one fee.

A product is defined as a single manufacturing facility for purposes of determining product platform fees for both SMaRT and SMaRT EPDs

For product platforms for more than two products for initial and additional product certification, and recertification, there is an additional fee of \$10k for sustainable, silver and gold, plus \$500 per product in the platform. For platinum, the additional fee is \$15k plus \$1000 per product in the platform.

SMaRT Environmental Product Declaration (EPD) Option. SMaRT EPD Fee is \$10k per product. For product platforms it is \$15k per product platform with five or less products, and \$20k with five or more products.

For manufacturers with less than \$50,000,000 in annual sales, the EPD fee is \$5k. See the SMaRT EPD Policy for requirements: <http://mts.sustainableproducts.com/SMaRT/Certification>
