**Certified Sustainable to the Triple Bottom Line:
Good for the Environment, the Economy and for Social Equity**

Knoll® Calibre R Files and Storage

To achieve SMART® Sustainable Product Certification at any level, products must achieve 14 prerequisite points and score a minimum of 28 out of 162 points in the following areas covering all product stages across the global supply chain:

- Safe for Public Health & Environment
- Renewable Energy & Energy Reduction
- Biobased or Recycled Materials
- Facility or Company Requirements
- Reclamation, Sustainable Reuse & End of Life Management
- Innovation in Manufacturing

Under these areas, products are required to:

- Provide Feedstock Inventory Documentation
- Document the Input and Output of Stockholm Chemicals
- Maintain a Manufacturing Facility Energy Inventory
- Keep an Inventory of all Biobased and Recycled Content Materials
- Have EMS Environmental Policies and Targets
- Have Social Indicator Reporting for Manufacturers (working conditions)
- Use ISO Life Cycle Assessment process
- Have Operational Reclamation and/or Sustainable Reuse Programs
- Have Product Performance Durability (long lasting products)

To earn a Sustainable Gold rating, the Knoll Calibre R Files and Storage earned 72points:

- 18 points:** Safe for Public Health & Environment
GREENGUARD Children & SchoolsSM certified
- 28 points:** Renewable Energy & Energy Reduction
Lubin Manufacturing Facility offsets 100% of electricity used at site with wind energy
- 7 points:** Biobased or Recycled Materials
20%+ Recycled Content
- 15 points:** Facility or Company Requirements
Completed ISO Life Cycle Assessment
- 4 points:** Reclamation, Reuse & End of Life

What buyers/specifiers will want to know about the Knoll Calibre R Files and Storage:

- The fifth product in the furniture industry to earn SMART® Sustainable Product Certification
- GREENGUARD Indoor Air Quality Certified®
- Wood components available with FSC-certified materials
- Powder coating on steel virtually free of Volatile Organic Compounds (VOC)
- Available in 100% recycled content fabric
- 100% recycled content particleboard
- Manufactured using clean technology in an ISO 14001 certified building in Muskegon, MI
