

DELIVERING A CLEANER ENVIRONMENT.

FedEx
Federal Express®

FedEx, the world's largest express transportation company, is committed to transform its fleet of 30,000 trucks to vehicles meeting the Clean Vehicle Standard.

This means a 50% cost saving from increased fuel efficiency, a 90% reduction of tailpipe emissions, and additional savings through materials conservation.

Learn more about the Clean Vehicle Standard by visiting www.cleancarcampaign.org and make your next vehicle purchase a clean one. Or for further information about supporting other sustainable product standards, please contact The Institute for Market Transformation to Sustainability at 202.338.3131, mts@sustainableproducts.com.
